**AMKAISOLUTIONS' APPOINTS MOLLY SANDVIG TO ITS BOARD OF DIRECTORS**

**Armonk, NY** AmkaiSolutions announced today that Molly Sandvig has been appointed to the AmkaiSolutions Board of Directors. “We are thrilled to have Molly Sandvig joining our Board. She has tremendous experience in the health care services industry, and in the surgical hospital sector in particular,” said Trygve Mikkelsen, Chairman of the Board. “She will be an invaluable resource to the company moving forward.”

AmkaiSolutions recently introduced their AmkaiOffice™ and AmkaiCharts™ products to the surgical hospital market. “Having Molly’s experience to help guide us while expanding our presence in this area will be a huge asset,” says AmkaiSolutions President and CEO Joe Macies.

“After reviewing the AmkaiSolutions’ product portfolio I am convinced of the value they offer to facility operators,” said Molly Sandvig. “Understanding AmkaiSolutions’ innovative capabilities, and witnessing first-hand the potential of a specialized EMR, I am thrilled to be involved in further developing the products to optimize facility operations.”

Molly Sandvig is currently Executive Vice President of Provider Relations for National Surgery Network (“NSN”). NSN connects self-insured employers and their patients with the highest quality, lowest cost hospitals and physicians around the country, through Employer Direct Healthcare. From 2005 through 2010, Ms. Sandvig held the position of Executive Director of Physician Hospitals of America (PHA), the trade association representing the interests of physician owned hospitals across the country. An established figure on Capitol Hill, Sandvig lead PHA’s political advocacy efforts and fund-raising, membership recruitment, public relations, as well as its day-to-day business and operational functions. During Molly’s tenure with PHA, the association grew over six times in size and revenue base and became a well-established trade association within the healthcare association community. Ms. Sandvig received her Juris Doctorate with honors in 1997 from the University of South Dakota School of Law.

## **About AmkaiSolutions**

AmkaiSolutions is a trusted industry leader, providing innovative electronic solutions to surgical hospitals, ambulatory surgery centers and affiliated practice and clinics. AmkaiCharts, the #1\* rated EMR solution, provides users with critical patient information at their fingertips, with powerful data mining and reporting capabilities, and accreditation at all levels. AmkaiCharts fully integrates with AmkaiOffice, the company's next generation administrative and management system. AmkaiOffice allows users to maximize revenues, reduce supply costs and ensure timely completion of tasks, while providing detailed profitability reporting of case costing, and corporate/facility financial reporting and modeling.
