AmkaiSolutions™ Completes \$3 Million Financing

Waterbury, CT ---September 7, 2010 --- AmkaiSolutions™ announced today the completion of its \$3 million equity financing. The offering of Class E Interests was fully subscribed among existing and select new investors. “With the completion of our \$3 million financing and the strong market support for the **AmkaiSolutions™** product offering, we are very excited to be in a position to pursue a broader sales and marketing program,” said Joe Macies, CEO of **AmkaiSolutions™**.

“Our mission is to be the premier provider of effective software solutions for our clients - Ambulatory Surgery Centers, Surgical Hospitals and affiliated physician practices – we want our clients to think of **AmkaiSolutions™** as the best system to maximize their revenues and to optimize their clinical data management, and we look forward to a more aggressive promotion of our offering to the client base,” said Joe Macies, CEO of **AmkaiSolutions™**.

AmkaiSolutions™ systems are installed across the country in ASC, Surgical Hospital and physician practice settings. “AmkaiCharts was recently ranked #1 among EHR systems for ASCs by Parsons Institute of Information Management,” noted Craig Veach, Senior Vice President at **AmkaiSolutions™**. “Additionally, AmkaiCharts has been surveyed successfully by The Joint Commission, AAAHC and CMS.”

AmkaiSolutions™ offers administrative systems through AmkaiOffice™, EHR systems through AmkaiCharts™, complete enterprise systems through AmkaiEnterprise™, and specialty-specific software for GI, Pain, Orthopedic and Ophthalmology operations. Customers can acquire these solutions on a centrally hosted subscription plan called Amkai OnDemand™ as well as via license acquisition.

About AmkaiSolutions™

AmkaiSolutions™ delivers comprehensive information management for outpatient surgery providers across every stage of administrative and clinical workflow. **AmkaiSolutions™** suite of business management, electronic health record, CPOE, e-prescription, and related applications promotes streamlined operations, structured data exchange, and patient safety.
