Covenant Surgical Partners and Amkai Sign Master Agreement

Amkai to Provide its Software Suite to Covenant's Existing and Future Facilities

Waterbury, CT --- April 22, 2009 --- Amkai announced today that it has signed a Master Agreement with Covenant Surgical Partners, Inc. to be the sole provider of software solutions to manage administrative and clinical information across all of the company's facilities. Headquartered in Nashville, TN, Covenant Surgical Partners, Inc. is a privately-held owner and operator of ambulatory surgery centers.

Under the agreement, Amkai will initially implement its AmkaiEnterprise™ system to manage four existing surgery centers. As Covenant adds ASC's to its portfolio, Amkai will roll-out its software to those locations as well. AmkaiEnterprise consists of two integrated software components:

- **AmkaiOffice™**, a next-generation administrative system covering registration, scheduling, inventory, billing and more
- **AmkaiCharts™**, the company's full-featured EMR designed specifically for surgical facilities and affiliated surgical practices.

Covenant will make the Amkai software available to its facilities through secure access from the Nashville data center. An important objective is to provide an enterprise ASC solution with a provider who also has a solution for the physician practices affiliated with Covenant's surgical centers designed to share common information between the physician practice and surgical facilities.

Rick Jacques, President and CEO of Covenant, stated, "We did a thorough evaluation of leading information systems and concluded that Amkai's solution offers the greatest flexibility to support a corporate group such as ours. Moreover, Amkai is committed to integrating data management between our ASC's our affiliated physicians private practices – a major plus in our view compared to other offerings."

Craig Veach, Amkai's Senior Vice President, added "We are gratified by Covenant's endorsement not only of our software functionality, but equally importantly our comprehensive strategy of offering software that fits the needs of single and multi-location companies alike as well as linking practices and ASC's. We intend to help Covenant as it strives to become one of the leaders in the industry."

About Amkai

Amkai delivers comprehensive information management for outpatient surgery providers across every stage of administrative and clinical workflow. Amkai's suite of business management, electronic medical record, CPOE, e-prescription, and related applications promotes streamlined operations, structured data exchange, and patient safety. For further information, visit www.amkai.com or call 866.265-2434.

About Covenant Surgical Partners

Headquartered in Nashville, TN, Covenant Surgical Partners, Inc. is a privately-held owner and operator of ambulatory surgery centers. Covenant was founded by a group of successful, experienced investors, including several seasoned healthcare and financial executives and a prominent physician who is an owner of a surgery center.

Covenant's strategic objective is to become one of the foremost operators of ASC's in the U.S. by acquiring and operating single and limited specialty surgery centers in partnership with leading physicians. Further information is available at www.covenantsurgicalpartners.com
